

National Training Centre and Facilities Strategy Review - Stakeholder Survey Distribution List

The list below indicates the names of the individuals who have received an invitation to participate in a preliminary stakeholder survey for the NTC and Facilities Strategy Review for Rowing Canada Aviron (RCA). This survey represents the preliminary portion of an ongoing consultation process with RCA stakeholders by the Sport Law & Strategy Group.

If you wish to request that specific individuals who are not on this list also receive the survey, please email us at rcafeedback@rowingcanada.org. We will consider adding individuals who have relevant experience/knowledge within the Canadian high performance rowing system, who can provide direct insight into criteria for a National Training Centre. Please provide the name of the individual, their email address and a short explanation as to why they should be included in this survey.
